

I claim:

1. An decorative fabric assembly, comprising:
  - a base fabric comprising a receiving section adapted to receive a removable fabric section;
  - 5 one or more removable fabric sections adapted to be interchangeably attached to the receiving section; and
    - fastening means for attaching the one or more removable sections to the receiving section of the base fabric, wherein a first removable fabric section is affixed to the base fabric to create a first decorative scheme, and wherein the first removable fabric section is capable of removal and replacement with a second removable fabric section to create a second decorative scheme.
  2. The decorative fabric assembly of claim 1, wherein the fastening means is selected from the group consisting of buttons, snaps, ribbons, zippers, Velcro, and hooks with strings.
  3. The decorative fabric assembly of claim 1, wherein the fastening means is not visible after the removable fabric section is attached to the base fabric member.
  - 15 4. The decorative fabric assembly of claim 1, wherein the receiving section is located at the center of the base fabric.
  5. The decorative fabric assembly of claim 1, wherein the base fabric is attached to one of the removable fabric sections to form a bed cover.
  - 20 6. The decorative fabric assembly of claim 1, wherein the base fabric comprises additional receiving sections adapted to receive the removable fabric sections.
  7. The decorative fabric assembly of claim 6, wherein the base fabric is attached to multiple removable fabric sections to form a bed cover.
  - 25 8. The decorative fabric assembly of claim 1, wherein each fastening means comprises a first component located on the base fabric and a second component located on the removable fabric section, and wherein the first component is capable of attaching to the second component to secure removable fabric section to the base fabric.
  9. The decorative fabric assembly of claim 1, wherein the base fabric comprises a top panel, and wherein the removable fabric section is interchangeably attached to the base fabric by the fastening means to form a window treatment.

10. The decorative fabric assembly of claim 9, wherein the base fabric further comprises means for attachment to a rail or any other solid support above a window.
11. The decorative fabric assembly of claim 1, wherein the base fabric comprises multiple pieces of sub-base fabric, said multiple pieces of sub-base fabric removably and 5 interchangeably attached to each other by fastening means to form the base fabric.
12. A decorative fabric assembly for covering a bed, comprising:
  - a base fabric sheet comprising a receiving section adapted to receive a removable fabric section;
  - one or more removable fabric sections adapted to be interchangeably attached to the 10 receiving section; and
  - fasteners for attaching the one or more removable sections to the receiving section of the base fabric, wherein a first removable fabric section is affixed to the base fabric to create a first decorative scheme, and wherein the first removable fabric section is capable of removal and replacement with a second removable fabric section to create a second 15 decorative scheme.
13. The decorative fabric assembly of claim 12, wherein the receiving section is located at the center of the base fabric.
14. The decorative fabric assembly of claim 12, wherein the fasteners are selected from the group consisting of buttons, snaps, ribbons, zippers, Velcro, and hooks with strings.
- 20 15. The decorative fabric assembly of claim 12, wherein the fasteners are invisible after the removable fabric section is attached to the base fabric.
16. The decorative fabric assembly of claim 12, wherein the base fabric comprises additional receiving sections adapted to receive the removable fabric sections.
17. A decorative fabric assembly for covering a window, comprising:
  - 25 a top fabric panel;
  - one or more removable fabric sections adapted to be interchangeably attached to the top fabric panel; and
  - fasteners for attaching the one or more removable fabric sections to the top fabric panel, wherein a first removable fabric section is affixed to the top fabric panel to create a 30 first decorative scheme, and wherein the first removable fabric section is capable of removal

and replacement with a second removable fabric section to create a second decorative scheme.

18. The decorative fabric assembly of claim 17, wherein the top fabric panel comprises means to attach to a solid supporting structure above a window.

5 19. The decorative fabric assembly of claim 17, wherein the top fabric panel is a fabric with ruffles.

20. The decorative fabric assembly of claim 17, wherein the decorative fabric is a valance.

21. A method for room decoration, comprising:

10 covering an item or an opening with a fabric assembly comprising a base fabric including a receiving section adapted to receive a removable fabric section to create a first decorative scheme, and a removable fabric section adapted to be interchangeably attached to the receiving section using fastening means.

22. The method of claim 21, further comprising:

15 removing the removable fabric section from the fabric assembly; and  
replacing the removed removable fabric section with another removable fabric section to create a second decorative scheme.

23. The method of claim 21, further comprising:

attaching the base fabric to a solid supporting structure.

20 24. A fabric decorating kit, comprising:

a base fabric comprising a receiving section adapted to receive a removable fabric section;

one or more removable fabric sections adapted to be interchangeably attached to the receiving section; and

25 fastening means for interchangeably attaching the one or more removable fabric sections to the receiving section of the base fabric, therefore creating one or more decorative schemes.

25. A fabric window treatment kit, comprising:

a top fabric panel;

30 one or more removable fabric sections adapted to be interchangeably attached to the top fabric panel; and

fasteners for interchangeably attaching the one or more removable fabric sections to the top fabric panel, therefore creating one or more decorative schemes.
